

TRAINING

CDPCXPress

Instructor-Led 9 Day CompTIA® A+, Network+ and Security+ Combo Boot Camp

3.429,00 USD

Synopsis

Objectives

1. The primary objective of this course is to ensure students can install, configure, and troubleshoot PC hardware and operating systems, and understand the components of a network, build network cables, and understand the OSI Model. You'll build on your knowledge and professional experience with computer hardware, operating systems, and networks as you acquire the specific skills required to implement basic security services on any type of computer network.
2. To ensure our students are successful in passing the CompTIA exams.

Tasks

Upon completion of this course, students will be highly proficient in the following tasks:

- Assembling PCs
- Installing client operating systems: Windows XP Pro & Windows Vista
- Troubleshooting client operating systems: Windows XP Home/Pro, Windows ME, and Windows 9x
- Troubleshooting PC and server hardware
- RAID Configuration
- Network Protocol Configuration
- IP Addressing – Subnet calculation
- Network Troubleshooting
- Network Devices
- Open Systems Interconnect (OSI - 7 Layer Model)
- identify security threats.
- harden internal systems and services.
- harden internetwork devices and services.
- secure network communications.
- manage a PKI.
- manage certificates.
- enforce an organizational security policy.
- monitor the security infrastructure

Course Layout

Classroom instruction is demanding, 8 hours daily, consisting of a combination of lectures, hands-on labs and exam preparation. Exam preparation is in the form of questions written by our staff of published authors..

ROI

The A+, Network+ and Security+ credential validates your knowledge of the foundation of PC hardware maintenance, network and security administration. Earning your A+, Network+ and Security+ certification

TRAINING

CDPCXPress

Instructor-Led 9 Day CompTIA® A+, Network+ and Security+ Combo Boot Camp

3.429,00 USD

ensures you have the prerequisite knowledge for advanced certifications from vendors such as Cisco, Microsoft, and EC-Council. Earning your A+, Network+ and Security+ certification ensures you have the prerequisite knowledge for advanced certifications from vendors such as Cisco and Microsoft.

Course Prerequisites

Prior to attending this course, all students should have 6 months experience working PC Operating Systems. This is an entry level course. This course provides the foundation for follow-on courses such as: MCSE and CCNA.

Certification Prerequisites

There are NO Certification Prerequisites for this course.

What's Included

- 2 CompTIA A+ Exam vouchers
- 1 CompTIA Network+ Exam voucher
- 1 CompTIA Security+ Exam voucher
- A+, Network+ and Security books and study materials
- On-site VUE or Prometric test administration
- The maximum student to instructor ratio is 8:1

Price: 3,429.00 USD Excl. O.B.

Date: June 2009

Duration: 9 days.

Location: CDPC main offices / Granaatappelweg 130
Dominguito / Curacao
